4 corners

Spring 2016

accent your life

introducing

Three new accessories are joining us this year. Well, in all truth, one is returning to the fold, back by popular demand. You asked to have the Bun Foot Stool back, and we could only accede, with a smile. Next, our new contemporary bases for benches and stools, available in dark or white hardwood, open up decorating options everywhere! In addition, we are introducing a selection (4) of soft, all-cotton, reversible blankets, cozy and cute!

the artists

Laura Megroz

Lead designer Laura Megroz works from her home studio in Vermont watching ever-changing views of pastoral meadows and rugged mountains. Laura loves the outdoor life, whether lakeside camping, downhill skiing, fall hiking or other active pursuits. Her designs are infused with a love of nature, a sweet nostalgia for the joys of childhood, and the wonderful friends that dogs are.

Judith Reilly

We are pleased to present award-winning textile artist Judith Reilly's second season with Chandler 4 Corners (The Woodstock Collection). Her rug designs reflect her love of her home and garden, and her enthusiasm for exploring traditions and stories. They are both simple and joyfully sophisticated.

We Make it Personal

custom sizes

RUGS THAT FIT, PERFECTLY

We excel at resizing our designs to make them fit in any room perfectly! We even enjoy the challenge of creating rugs to special sizes. We have fulfilled requests for extra-large rectangular and circular rugs, rugs in special shapes, and benches with custom tops to suit a particular decor. It's what we love to be able to do: have our products be a perfect fit.

customer service

(LIKE IT OUGHT TO BE)

Call us to discuss any order you may have questions about. Carolyn or Robin can provide you with the answers you seek, whether it is about timing, delivery, availability or anything else. They are customer service experts. We know that because we hear it all the time from customers whose problems they've solved. Don't hesitate to contact us, ever.

private label

ONLY IN YOUR SHOP!

Your shop can be the only one in the world to carry our hooked wool pillows (or rugs!) with a special name on them. Choose a town, a nearby landmark, a mountain, a lake—whatever is notable—and we'll put it on a pillow design you select. A small minimum order (25 pieces) is all you need to start. Try it! Private Label is a proven seller! Those who do it, order again and again.

name-a-pillow

A SINGULAR GIFT

This is the perfect way to offer your customers something more than they can get elsewhere. We will personalize a single hooked pillow, so your customer can give a totally unique gift. Most of our hooked pillow designs are customizable.

build-a-pillow

CUSTOMER ENGAGEMENT

Our new Build-a-Pillow program is the PERFECT customer engagement tool! It puts the customer in the driver's seat by allowing them to choose the background color, an icon, and a color for the lettering.

This is a turn-key program which includes store displays and easy to follow order forms. If you are not already offering this to your customers, contact your rep or our customer service. We'll get it right out to you!

Bespoke Dyes

Outdoorsy and Active in Every Season

In Vermont that's the way of things. Like us, our customers love mountains, lakes, woods, and wildlife. The special feelings those places evoke are reflected in our designs, which, in turn, recall the magic of being there, and the anticipation of returning.

How We Do It

People ask us how we do it. They don't really mean one single "it." Those admirers are inquiring about the secret sauce, the delicate balance, the special combination that makes our pillows better. It's not one "it," it's all of it: design, colors, authentic materials. No one else has "it."

About Our Process: Collaboration

Our designers play a major role in defining our unique aesthetic. Others here weigh in, too. Henry and David Chandler have a lot to say about each design. We collaborate further, asking our team for opinions. Carolyn Kelly and Robin Chandler get feedback daily from customers. Kathy Quimbach knows what the national brands like. It really takes a village to make a pillow.

Enhancing Trim

How Many Uses?

Canvas is a durable fabric of closely woven cotton that is suitable for sails and tents, for art (think: paintings on), for backpacks and totes, for sneakers, even for delicate embroidery. In sum, it is a true workhorse material that dresses up beautifully, as our canvas pillows (and Rembrandt) prove.

Silkscreened, Not Printed

Our canvas is a cut above. Silkscreening is more color-intensive and labor-intensive than machine printing. Each color is layered-on individually through screens that were originally made of silk. We won't explain it all here because, as Casey Stengel said, "You could look it up." Just trust us. It's a richer, more durable, more nuanced way to apply color to canvas than printing.

Insulating & Fire Retardant

Bespoke Dyes

Busy Feet Love Us

Take off your hiking boots, running shoes, gardening clogs. Step onto any of our thick hooked wool rugs and your feet feel like they are being massaged by the soft, bouncy loops. And the way these rugs look, it's easy to see how our designs warm hearts and rooms as well as feet and floors.

Respect the Wool

The benefits of pure wool rugs are legendary. They insulate floors (you get savings and a great look). Wool is also a totally renewable, sustainable resource—feed the sheep, the wool grows! Pure, natural wool is fire retardant, too, which is excellent to know when you put a rug in front of your hearth or woodstove.

Bespoke Dyes

Stories & Histories

Simple shapes transformed into sophisticated designs. This collection is born in Vermont, where a bucolic, hearth-centered life is the norm. The designs reflect that hominess and then reach beyond it to explore other symbols of great grace. These rugs sit comfortably in lodge or apartment, hearth room, foyer or wherever a cook, adventurer, beach bum or gardener lives.

Warming Rooms, Enlivening Moods

The allure of a home that is cozy and warm is indisputable. At Chandler, we're especially proud to be part of the revival of an old-fashioned craft that warms homes and is currently undergoing a renaissance. Today hand-hooked wool rugs are respected and admired anew. Timeless, durable and beautiful, they bring color to quiet areas and give lucky floors new pizzazz.

Insulating & Fire Retardant

Colorways from Nature

Fresh Air & Sunshine

Stripey and fun, these stylish, contemporary rugs are also far sturdier than their cotton cousins yet just as affordable. They sit beautifully in hip urban apartments or woodsy cabins and recall summer camps and beach houses, goings out and comings in, with paddles or sand pails or firewood. Put them anywhere for a breath of fresh air.

Where do Benches Thrive?

Their natural habitat includes the ends of beds, where they stand ready to help in daily dressing. They sit pretty in mud rooms and foyers, for donning and doffing outerwear. They thrive in dining rooms and breakfast nooks. In living rooms and great rooms they do their very best method acting as spare side tables until called upon to be additional seats. So many places for benches!

The Trout Bench has a strip of brown faux leather accenting the edge of the hooked top.

sales support

Chandler in Atlanta & NYC

We have a permanent showroom in Atlanta filled with products in AmericasMart Building 1. It's open all year by appointment, and all day every day during the January and August trade shows. Come see us there or at NYNOW in February and July, too. If you need help, contact your reps first. They are awesome!
